IMAGERY ANALYSIS SERVICE

PRODUCTION BOARD MEETING

Thursday, 4 December 1969 - 1330

25X1

IAS NOTES

Four notes were reviewed and approved for publication this week.

LINK COMPARATORS

25X1

[redacted] announced that two additional link comparators will arrive shortly. One will be placed in MSD, and the room hitherto used for preliminary assessments will no longer be available for that purpose. The other will be located next door to the chip comparator in SID.

25X1

[redacted] representative, has been approved for the clearances we requested. He will now be able to work more effectively with PI's on care and maintenance of equipment in IAS.

SCHEDULING OF TELEPROMPTER ROOM

25X1

With the elimination of the last of the conference rooms in the divisional areas, the Teleprompter room will be in greater demand and the use of it will have to be scheduled in advance. The room will be scheduled through [redacted] with preliminary assessment activities having top priority.

Approved For Release 2004/02/11 : CIA-RDP78B05703A000200040024-4

SECRET

GROUP 1  
Excluded from automatic  
downgrading and  
declassification

INSTALLATION OF TELEPHONES

25X1 [ ] reported that the expansion of the present KY-3 system and the installation of the new KY-3 telephone in the newly completed phone booth area will be installed in approximately one month. The gray line in the front office will therefore have to be used by the assessment team during the next mission.

STORAGE OF SPECIAL SI MATERIAL

25X1 IAS has received permission to receive and store certain categories of sensitive SI documents in the RMB area. Properly cleared people will be called to review the material when it is received. The documents will be under the control of [ ] and must stay in RMB area.

COMIREX

25X1 EXRAND. [ ] reported he visited Army TOPOCOM at AMS and inquired about their production of the WAC mosaics for NPIC. These have been discontinued beginning with Mission 1050, when TOPOCOM started producing the photo mosaic index. IAS has found the [ ] mosaics unsatisfactory and apparently others also feel improvement is necessary. 25X1 25X1

NEW EQUIPMENT

25X1 [ ] reported that one dual-viewing microstereoscope for each division will be coming in shortly as will IIS equipment to be located in MSD and SB areas [ ] 25X1

FIVE YEAR PLAN - STATUS REPORT

25X1 [ ] reported on progress on the Five Year Plan. He has received data for objectives 1-4 and arrived at new figures to update last year's plan. This year's plan will not require as much intensive activity involving division chiefs as last year's because the emphasis is on changes. Division chiefs were asked to consider space requirements over the next few years in view of anticipated personnel and equipment, and to inform [ ] of their findings by C.O.B. Friday, 12 December. 25X1

PROJECTS DUE FOR COMPLETION

25X1 [ ] commented on projects due for completion in the next two weeks and encouraged their completion before next mission arrives. There has been a drop in numbers of IAM's produced and the Divisions were requested to give thought to making the "meatier" IOM's into IAM's. As a general rule, if in doubt, lean towards the IAM format.
